Liceo Statale Enrico Boggio Lera

“E. Boggio Lera” is a state school. It consists of one main building and two secondary buildings. It used to be a Benedictine Monastery, designed in early 18th century by the great Italian architect G.B. Vaccarini. The school is equipped with a lot of laboratories where it is possible to make experiments with special tools or do listening lessons. It carries out: bilateral and multilateral partnership with the aim to develop European competence, to practice foreign languages and to increase the awareness of European citizenships and internationalization.

It offers the EsaBac, which is an internationalization activity with the aim to obtain the diploma

*valid for the university admission in France, and the Comenius:
Individual mobility for students*

with Comenius scholarship, who has the following objectives:

Develop knowledge and understand the diversity of European cultures and languages. Help young people acquire the basic skills needed for life and skills necessary for their personal development, employment and citizenship.

Liceo Scientifico Statale « Enrico Boggio Lera »

“Green Europe for Young Europeans - Green EYE”

The impact of the project on the school and on the community

We have been working to the project “Green EYE” for two years. On the first year we, students of 3A, 3B and 4CL, worked on the module 1 “Am I a Green Citizen” and Module 2 “Similar and different environmental issues around Europe”. On the second year we developed Module 3 “Let’s Face it” and Module 4 “Making a Green Europe”.

During this year we have been involved in the project “Green Eye”, that consists of improving our environment at school and in the community. We have worked with our European partners coming from Scotland, the Netherlands, Germany and Turkey.

During our Conference in Catania we did a lot of activities and participated in five workshops: in “The Green EYE Journal workshop” we edited and published the magazine reporting any news related to the Conference; then in the “Treasure

Hunt” workshop and create a plan with the task to find out the green areas in Catania. In the “Upcycling” workshop, some partner students learned how to recycle by creating some posters stuck on wooden boards decorated with pages

of old books and aphorisms; in the same workshop other students transformed old bins into bins to collect paper and plastic to use in the premises of the school; in the “Creating a Greener School” workshop we worked to renew, clean and plant flowers in the green areas of the school; finally in the “Video and Photos” workshop we made a video and a photo gallery of the most impressive moments of our conference.

After our conference held in Catania we guys feel more motivated in doing the project: we started respecting our school environment, doing the separated recycling with paper and plastic and now we encourage people in doing that, in the same time we improved the quality of our life working together, developing our teamwork thanks to the activities we did in the workshops. Of course we changed our habits with people at school and at home with family and we improved our expectations to be a model for the other students.

The students:

Lara Isabel D’Urso 2DL

Federico Giovanni Fassari 3A

Adrian Shahini 3B

Ettore Lo Giudice 3B

Noemi Pintaldi 3CL

Monia Sanfilippo 4CL

Marta Lo Presti 4CL

Grazia Palermo 4CL

❖ *Glasgow Conference : Teachers' and pupils' meeting 1 June – 5 June 2015*

WORKSHOPS In Venray Conference

- ❖ *WORKSHOP I : Green EYE Journal*
- ❖ *WORKSHOP II : Upcycling*
- ❖ *WORKSHOP III : Creating a greener school/environment*
- ❖ *WORKSHOP IV : Environmental friendly sport activities (outdoor games, sports)*
- ❖ *WORKSHOP V : Video/photo documentary*

WORKSHOPS In Hanover Conference

- ❖ *WORKSHOP I : Green EYE Journal*
- ❖ *WORKSHOP II : Upcycling*
- ❖ *WORKSHOP III : Creating a greener school/environment*
- ❖ *WORKSHOP IV : Environmental friendly sport activities (outdoor games, sports)*
- ❖ *WORKSHOP V : Video/photo documentary "Green Hanover"*

WORKSHOPS In Catania Conference

- ❖ *WORKSHOP I : Green EYE Journal*
- ❖ *WORKSHOP II : Upcycling*
- ❖ *WORKSHOP III : Creating a greener school/environment*

- ❖ *WORKSHOP IV: Green actions in Catania (treasure Hunt)*
- ❖ *WORKSHOP V: Video/photo documentary*

WORKSHOPS In Glasgow Conference

- ❖ *WORKSHOP I : John Muir Award (Forest Skills)*
- ❖ *WORKSHOP II : Mural*
- ❖ *WORKSHOP III : Upcycling*
- ❖ *WORKSHOP IV : Treasure hunt*
- ❖ *WORKSHOP V : Journal – video/photos and Green EYE Book*

10 STEPS TO BE A GREEN CITIZEN

- *Do recycling.*
- *Don't leave computers or TV in standby mode (if you don't need them, switch them off).*
- *Use low energy light bulbs .*
- *Telephones in "save energy mode".*
- *Switch off the lights if you don't need them .*
- *Always go on foot .*
- *Brush your teeth and never leave the tap running.*
- *Use recycled paper although it's yellowish.*

Education and Culture
